

Sili-Ties™ Silicone Impregnated Ties

- Exclusive impregnation reduces friction with wires during treatment
- Injected with a silicone additive that is time-released during the life of the product while in the mouth
- The slick surface makes them easier to place than standard elastomerics - it will not wear off due to abrasion, like other coated ties
- Sili-Ties improve aesthetics and retain clarity longer

Sili-Ties

.120" diameter size. Ties are packaged in bags of 45 dispensers, 22 ties each
