

## Engage-R Tool

The dual tips on one end span the In-Ovation R bracket to grab the arch wire, allowing you to easily snap the clip closed. The other end has a small ball that fits perfectly into the sliding cap for easy opening.

## Engage-C Tool

The dual tips on one end span the In-Ovation C bracket to grab the arch wire, allowing you to easily snap the clip closed. The other end has a small "cup" that fits perfectly over the ball of the sliding clip for easy opening.

## Engage-L Tool

The fork end helps push the wire into the slot of the In-Ovation L bracket. The other end is used to rotate the bracket clip open with ease.
