Course

26-27/04/2012

in Florence

Language: ENGLISH

FIRST DAY – DR. ARTURO FORTINI

Logic Line – Slide – Low friction

Clinical applications of First Class distalizer

- Evolution of the Straight-wire System: from functional occlusion of Roth to the MBT and STEP Systems
- **The STEP SYSTEM**
 - Main features
 - Basic principles
- The control of the anchorage by LACE-BACKS, BAND-BACKS, TIE-BACKS (clinical indications)
- New mechanics of treatment
- The simplification of mechanics during the treatment: identification of the difficulties, prevention of the mistakes, ability to predict the results.
- **LOW FRICTION** in Orthodontics and its involvement in the recovery of the space.
- Low friction biomechanics: the principle of the tube and the implication in the movement of the teeth.
- Evolution of the selfligating brackets.
- **Transformation of the STEP System in a complete low friction system: the SLIDE ligatures**
 - Clinical advantages : reduction of the friction, use of light forces, improvement of the efficiency
 - Clinical evidences
 - Reduction of cases with extractions
 - Speed of treatment
 - Possibility to predict the results
- Logical use of friction in biomechanics : **the STEP System turns into Logic-Line**

TREATMENT OF CLASS II WITHOUT EXTRACTIONS: THE MOLAR DISTALIZATION

Limits of molar distalization

- Advantages and disadvantages of distalization
- An overview of the distalizing appliances
- Advantages and disadvantages of the different systems.

First Class Appliance
Clinical cases

DR. ARTURO FORTINI

M.D. Degree in Medicine at the University of Florence
D.D.S. Degree in Dentistry at the University of Florence
M.S. Specialization in Orthodontics at the University of Pavia
Visiting Professor (Lecturer), Department of Orthodontics, University of Florence

Active Member of the S.I.D.O Italian Orthodontic Society

Speaker at the 99th Congress of the A.A.O in San Diego, 1999
Speaker at the 105th Congress of the AAO in San Francisco, 2005
Speaker at the 106th Congress of the AAO in Las Vegas, 2006
Speaker at the WFO International Congress in Paris, 2005

Author of many scientific orthodontic articles published on national and international orthodontic magazines

Scientific consultant for Leone on Straight Wire technique and official speaker for the Step System.
He has taken lectures and courses in Italy, United States, Mexico, Spain, Portugal, Czech Republic, France and other countries.

SECOND DAY – DR. FABIO GIUNTOLI

Ideal light lingual system

Tour of the company

OBJECTIVES AND LIMITS OF A 2D LINGUAL SYSTEM

The ideal patient for an aesthetic orthodontic treatment :

- Selection
- Motivation
- Definition of the targets and treatment time

THE IDEA-L SYSTEM

- Morphology and main features of the brackets
- The ligatures: Slide™, conventional elastics and metallic
- The archwires: Niti archwires and Beta MEMORIA®
- Managing friction in 2D Technique

OPERATIVE PHASES

- Indirect Techniques for Laboratories and Dental offices
- Banding Systems
- Adhesives
- Archwire choice and forming
- Insertion of the archwire and application of the ligatures.
- Stripping: How and How far can you go?
- Occlusal bites: When and why are they necessary?
- Managing the inconveniences

PRESENTATION OF SOME CLINICAL CASES

- Young adult patients
- Adult periodontal patients
- Interdisciplinary cases

DR. FABIO GIUNTOLI

Graduated in Dentistry in 1997 at the University of Florence

Specialization in Orthodontics in 2006 at the Catholic University of Sacro Cuore in Rome

Author of scientific publications for national and international journals .

SIDO ordinary member

Lecturer for many courses and seminars about the Straight-wire technique in Italy and abroad

Specialist in Orthodontics since 1998

Course Hours:

26 April 2012:

- 08:45 – Registration
- 09:00 – Beginning of the course
- 11:00 – Coffee break
- 13:00 – Lunch
- 14:00 – Beginning of the afternoon lecture
- 15:30 – Coffee break
- 17:00 – End of the lectures

27 April 2012:

- 09:00 – Beginning of the course
- 11:00 – Coffee break
- 13:00 – Lunch
- 13:30 – Tour of the company
- 14:00 – Beginning of the afternoon lecture
- 15:00 – End of the lectures
